Hi Robert –

I'm Laura from Air Force Public Affairs. We saw your all's event tomorrow on Unidentified Aerial Phenomenon and Nuclear Weapons, we're curious if there's a way for us to listen in to prepare for any follow-on media queries that may come our way?

Thanks in advance!

Yea, that's what I seem to recall ... we've been pushing to Navy for the most part. Sue hasn't asked again and we haven't received any queries so we may be in the clear.

That's YUGE progress!! Congratulations on your new skills. Let me know how your walk goes and man does a dip in the pool sound nice! It was only 44 here this morning.

Nothing yet...and let's hope it stays that way.

I have failed in finding an RTQ. However, the two "SME's" I primarily saw talking this morning were Army and Navy...so, off to OSD! ☺

I do enjoy my new dancing skills, I'm trying to do my living room laps without the cane and after work today I'm going to try walking around the block and then getting in the pool. (I haven't tried getting in yet because I'm afraid I won't be able to get out...which will probably make me cry.)

Maybe tomorrow...the treadmill...

Hi Laura,

Anything come from this? Were you able to find an RTQ on UAPs? No one is asking so no rush, I was just curious what you may have found out.

How are you feeling about your new dancing skills? More mobile every day?

Rose

Thank you for the heads up. If there is a way to listen in, we would be very interested to hear what they have to say as well!

Thank you for letting us know.

V/R,
Maj Crawford

All –

FYSA, tomorrow the National Press Club will be hosting a panel with former USAF officers who plan to discuss their involvement in Unidentified Aerial Phenomena incidents at nuclear missile bases and test sites during the Cold War era.

We're working to see if we can listen in and will cord with you should we receive any media queries.
